WARRANTY: RITE Engineering and Manufacturing Corporation warrants boilers of its manufacture and bearing its nameplate, when not misused or neglected, to be free from defects in workmanship or material. The company's obligation under this warranty is limited to repairing or replacing at its factory any device or part thereof which shall, within one year after delivery to the original purchaser, be returned to the factory, transportation charges prepaid, and which on examination shall prove to have been defective. The company assumes no liability for consequential damages of any kind; the purchaser by acceptance of this equipment shall assume all liability for the consequences of its use or misuse by the purchaser, his employees, or others. A defect in the meaning of this warranty, in any part of said equipment, shall not, when such part is capable of being repaired or replaced, operate to condemn such equipment. This warranty is expressly in lieu of other warranties, obligations or liabilities, expressed or implied by the company or its representatives. All statutory or implied warranties, other than title, are hereby expressly negated and excluded.
